The 2nd Annual GW Women in STEM Symposium is a half-day event exclusively for GW undergraduate and graduate women pursuing industry, research and academic careers in the science, technology, engineering and math (STEM) disciplines.

**WHEN:** Saturday, November 5, 10am-2pm  
**WHERE:** Science & Engineering Hall  B1220

**The program features:**
- prominent female faculty & alumnae speakers  
- a panel of mentors and their protégés to share their stories  
- opportunities to network with female faculty, employers, and alumnae  
- a facilitated round table with professionals sharing their daily experiences as female STEM professionals

**Highlights:**
- Keynote Address by Julie McEnery, NASA: “Crashing Thru the STEM Glass Ceiling: My Journey to Career Success”  
- Presentation: “Does your Assessment Fit your Career Path?” Kelsey Johnson, Career Exploration Coach  
- Networking Lunch  
- Panel: “Ask the Professionals” Women STEM professionals  
- Round Table Discussion of Lessons Learned with Meghan Coakley  
- Light breakfast and lunch will be provided.

Cosponsored with GW Women in STEM and Alumni Relations
